Jianping Huang  
NOAA/NWS/NCEP/Environmental Modeling Center  
[5830 University Research Ct](#)  
College Park Maryland  
20740 UNITED STATES

Thank you very much for registering to attend the 23rd Annual CMAS Conference. The 3 day conference will start on October 21, 2024. We have received your payment, paid via Credit Card. This letter serves as your receipt from the Institute for the Environment at UNC-Chapel Hill for your registration fee payment of \$650 (USD).

Trainings on SMOKE and CMAQ will be offered before and after the conference, respectively, but you must register and pay for those events separately. Please make sure you familiarize yourself with our [Agenda](#) prior to coming to the conference.

This year's conference will be held at the William and Ida Friday Center for Continuing Education at the University of North Carolina at Chapel Hill. Registration will be held at tables outside the Grumman Auditorium in the mornings each day of the conference. You will receive an agenda package, including the final conference agenda, at that time. The latest agenda will also be posted to the conference web site, <http://www.cmascenter.org/conference.cfm>.

The Friday Center offers plentiful, free parking for event participants. There are no hotel facilities directly on the Friday Center campus. However, we have arranged for blocks of rooms at some nearby hotels at a reduced rate during the span of the workshop. Please visit the Conference Accommodations at <http://www.cmascenter.org/conference/common/accommodations.cfm> for the latest information on reduced rates at nearby hotels.

The closest airport to UNC is Raleigh-Durham International Airport. There is a shuttle service available from the airport to the Courtyard by Marriott Chapel Hill with a fee of around \$20.00 USD. The estimated taxi fare from RDU Airport to the Conference Center is \$30.00 USD.

If you need more information about the conference, area lodging or other aspects of the 23rd Annual CMAS Conference, please call the Institute for the Environment at 919-966-9925.
